

More Names Listed In Subscription Campaign

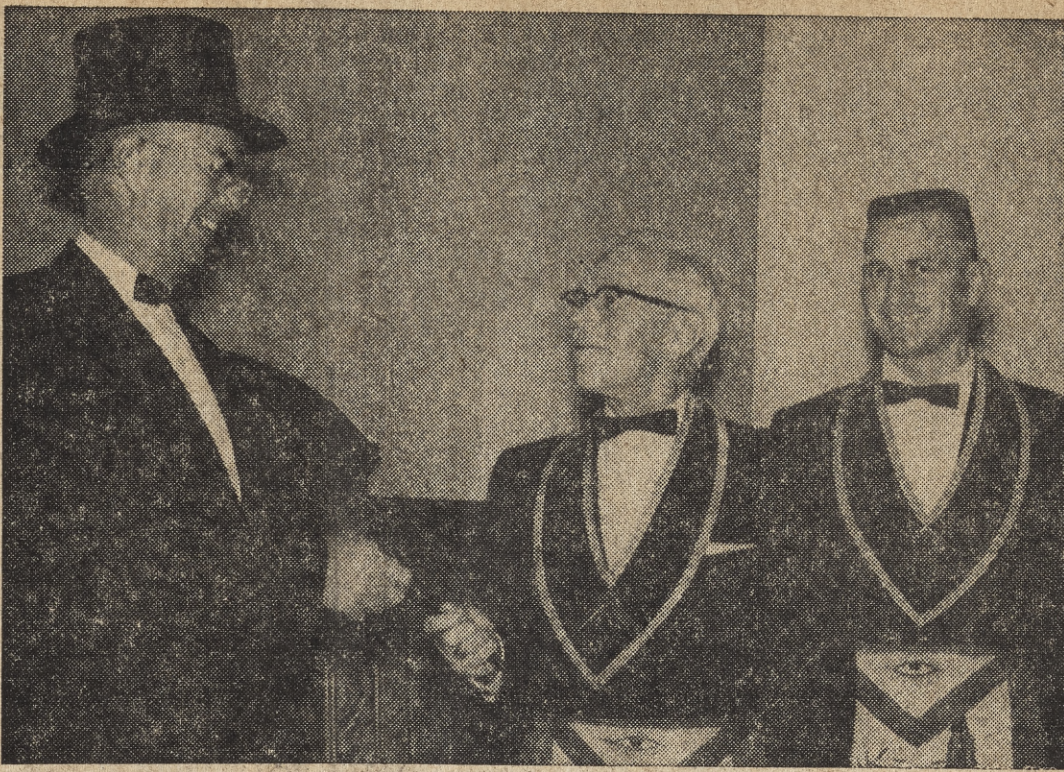

The holiday shortened week resulted in but 36 new names added to the list in this newspaper's subscription campaign. The new list brings to 264, the total number of families participating.

Part of their subscription cost is being passed on to the Spring Valley Welfare Assn. fund for use in their hard-pressed needy-family-aid program.

Each week we send ten cents from the subscription money of every new subscriber and a nickel from each renewal and pass the money on to the Assn.

Last week the name of one subscriber was omitted making the totals off by one. This week he will lead the list but his name will not be used for figuring totals. Thus, there will be one more name than our weekly totals show this week.

About Telstar and Teachers

If scientists can't understand reporters—it figures. We know at least one reporter who can't understand scientists, either.

The scientist in particular is Dr. John R. Pierce, the able, executive director of research for Bell Laboratories at Murray Hill, N.J. and the reporter... well, let's leave him anonymous.

Dr. Pierce, the father of the vaunted Bell Labs. Telstar, was in San Diego last week uttering observations that held the rapt attention of other scientists, newsmen, government officials and research leaders. It was as informal as these things can be and it is to the credit of the Pacific Telephone Co., that he was brought here to meet with the aforementioned worthies at the Kona Kai club Friday evening.

"What else," we asked after he had finished renewing his world-wide acquaintance with some of his fellow scientists, "do you consider to be the most important development during the Telstar era?"

"Teaching," he said bluntly, so we let that go.

We asked him about the MASER in which he had done considerable research (Microwave Amplification by Stimulated Emission of Radiation). His work with MASER as a highly concentrated electronic beam which cuts through interference made the Telstar possible.

"Do you see any destructive capabilities in MASER development?" we asked.

"None whatsoever," he said tersely.

We tried him again on our original question, rephrasing it slightly. "What development during the past two years appears outstanding in your research work?"

"I told you a moment ago but you wouldn't listen."

"Tell me again," we asked.

"Teaching."

"Will you amplify your statement?"

He said he would if we could emerge from our preoccupation with questions on destructive forces.

"We're tremendously excited about being able to put scientific knowledge in communicable form. We feel that this knowledge can be communicated at whatever speed the student wants. It does away with the concept that an average speed must be maintained so that the very slow and very fast students can be accommodated at the same time," he explained. "And it does away with teachers, too."

"Do away with teachers?" we asked. "We won't have them because we won't need them," he answered.

Our thoughts turned to an elementary school class where our own little girl is a third grade pupil. And we thought of the necessary rapport that exists between the teacher and the pupil at this tender level. No unscientific mind could accept this sterile condition as a proper atmosphere for teaching youngsters... so we changed the subject.

"Is your Telstar still performing reliably?" we inquired.

"Not since the command system failed soon after we put it in orbit," he said.

GETS NEW SITE — Last Thursday Lemon Grove's famous big lemon — probably the largest lemon in the world — was picked up by a hoist-truck at its long-time site at Golden and Imperial (see photo) and carried north about a stone's throw onto the plaza. Members of the "lemon-aid" committee had decided that the community symbol should be located in the most conspicuous place possible. On hand for the transplanting were some of those who made the improvement project, which also includes a lemon facelifting—possible. They are (l to r) Tony Sonka, Mrs. Leola Saville, Sam Pernicano and Bob Vaughnt.

Responsibility Denied For Up-Keep On Canton

SAN DIEGO (CNS) — A change order in the county's contract with Kenneth H. Golden Co. for re-surfacing of streets in the Lemon Grove area, at a cost of \$8,531, was approved last week by the Board of Supervisors.

The company has a contract for work on Imperial ave.

In other actions affecting L.G. sts., Supervisors decided that the county is not responsible for the drainage of Canton drive and that complaints that Colfax drive is in bad shape are unjustified.

A group headed by Frank C. Stelley protested drainage conditions in the Canton dr. area, saying that water is flooding private property in the vicinity.

But David K. Speer, road commissioner - county surveyor reported that the property in question is in a natural water course, so that owners of the land are historically responsible for the flood problem.

Decorations Winners Named

Lee Brumcrot, 3984 El Canto dr., S.V. and Pete Leonasio, 7602 Circle dr., L.G. were chosen winners in the L.G. Hardware Christmas decorations contest.

Leonasio's display was a dramatic shooting star in lights. Brumcrot's was a winter wonderland scene.

Jerry Heath, hardware store manager was judge. Each winner was given a merchandise certificate.

Lemon Moved-Final Touch To Be Applied This Week

The lemon was moved... thanks to a lot of local people, and the dedication was held Friday evening. The huge lemon, a Lemon Grove landmark which was installed at Imperial-Main and Golden in 1928, was solemnly transplanted with a back-ground of music. The band, the Mt. Miguel Matadors, was the same one that appeared in the Rose Parade Tuesday and this was its final appearance before the march of the roses.

On the stand for the dedication was R. Vaughnt, president of the L.G. C. of C.; Larry Folda, the kingpin of the whole project who plotted and executed the move; Mrs. Leola Saville a resident of S.D. and L.G. property owner who became interested in the project when she read about the lemon's crumbling underpinning in this newspaper. A reader had sent a dime in a letter to the editor suggesting that the landmark have its face lifted. Mrs. Saville offered to collect funds for that purpose and the chamber quickly acquiesced.

Collects Over \$300

She collected over \$300 and funds are still trickling in. (See list in this story.)

There was Tony Sonka, the keeper of the archives for the community, and Sam Pernicano, C. of C. board member and member of Folda's committee. There was Ruth Willingham, president of the Business Women's League of L.G. and Lawrence Christiansen, Mt. Miguel high school band director. Frosty Foster, executive manager of the chamber was master of ceremonies.

During the week additional funds came to this newspaper from five more donors: Byron Netzel, superintendent of the L.G. school district sent \$5; two anonymous donors sent \$5.50 and a check was sent by Frank Killian for \$5. George Clark, involved in the Mt. Miguel Band Parents project, gave a 50c loose change contribution and William Knowles sent \$2. The now total was \$320.25.

With the lemon now settled at its new site at Broadway between Main and Imperial, plans call for the facelifting to be started Saturday. Folda said the base would be dark green

### CHIMP ARRIVES HERE FROM AFRICA AFTER CATCHING COLD IN N.Y.

The long-awaited chimpanzee that Ron Gondek of Pampered Pet Store on Broadway has been talking about, arrived here in Lemon Grove on Dec. 13. With it, it brought a bad cold that Ron thinks it picked up in New York when the weather was so bad in the east.

The chimp, tentatively called "Noel" is eight months old and hails from Freetown, South Africa. Ron doesn't intend to sell it—at least not right away. He wants to see how Noel will take to training.

Ron knows of no other chimp like his in this area outside of the San Diego Zoo.

### WE ARE MAKING UP FOR OUR LACK OF "WHITE" CHRISTMASSES

We are getting our own style of Christmas in this area.

We've never had a "white Christmas" because it doesn't snow and therefore the ground doesn't get white. But we are making up for it.

The outdoor scenes and lighting that have been increasing each Christmas are something the "white Christmas" areas where the weather is so inclement cannot have.

We may not have sleighs, sleigh rides, snowflakes and mittens, we may not be so popular with the Christmas card makers, but we have outdoor Yuletide spectacles probably not excelled anywhere and equaled in few places.

### PTA OFFICIALS TO HOLD INSTRUCTION MEETING

### ADULT SCHOOL TO BEGIN

The Grossmont Adult School spring semester will begin Monday, Jan. 14. New classes will be added in the evening centers at El Cajon Valley, Helix, Mt. Miguel, Grossmont, El Capitan, and Granite Hills, as well as at the Grossmont-Santee Adult Day Center.

Spring semester programs are available in the libraries and post offices in La Mesa, Lemon Grove, Santee, Lakeside, Spring Valley, and El Cajon.

## Big Brother Week To Be Marked Here

Big Brothers, a 50-year-old national organization devoted to helping fatherless boys is observing Big Brother Week here Jan. 6-13.

Since the first program came to S.D. just a year ago, 324 boys have been referred for Big Brother service. All these boys between the ages of 8 and 16, needed the acceptance, understanding, friendship and affection of a grown man.

Today there are 11,000 fatherless boys in the County.

Usually the boy comes from a home where—for any reason—there is no adult male relationship in his life. Since prevention of problems is the long term goal—delinquent boys are not the local agency's only concern. Shy, lonely and unhappy boys who are future targets for trouble, make up the greater portion of our caseload.

Of the 324 boys referred for Big Brother service, 10 are presently living in the Lemon Grove area. Ted, age 8, lives in Lemon Grove. His father died about a year ago and the family is now dependent on financial assistance. Ted has three brothers and two sisters. The older children have been able to accept their father's death, but 8-year-old Ted has been unable to understand why his father is no longer there to play with him.

A mother, no matter how loving and responsible she may be, cannot serve as both a mother and father to her son. Somewhere as the boy is struggling toward manhood, he needs the source that can come only in relationship with a man who really cares about him.

Big Brothers of San Diego County, a non-sectarian agency, is unique in the field of guiding youthful lives.

It is the only program in which volunteer men (Big Brothers) work with boys (Little Brothers) on an individual and personal basis. Several interviews are held with each boy and his mother in order to identify their various problems and make certain that the boy can be helped through the friendship of a volunteer Big Brother. These volunteers are carefully interviewed and screened before being accepted.

## 38 Degrees Recorded Here In December

The lowest temperature recorded in Lemon Grove in this weather year is 38, which occurred on the nights of Dec. 28 and 30, according to the L.G. Fire Department, which maintains a temperature and rainfall measuring unit.

Assistant Fire Chief Dixon said the temperatures couldn't be compared with last year's because the unit has been in operation only since June, 1962. Grovans are to be congratulated for a fire-safe Yuletide, Dixon said. Practically no Christmas fires occurred. In 1961 a Central ave. home was totally burned at this time of year.

The L.G. Fire Department's first-aid unit went to the aid of a nine-year-old boy on a bike who was hit by a car at Imperial and Central on Dec. 28. Firemen responded at about 2:25 p.m. and found Billie Rühle of 2376 El Prado to be hardly scratched except for one hand. He was taken to the hospital nevertheless by order of the California Highway Patrol.

Dr. Pierce, et al. have first to solve their Telstar problems before they can turn their undeniably unusual mentality onto our teachers.

## Are We What We Eat?

A nice lady circulates through the County telling all who will listen of the dangers of pesticides. She is Laura Tallman, a mild-mannered, middle-aged matron who operates a small truck farm in Sunnyside.

Her story is that ranchers use of pesticides is accumulating poisons at an alarming rate and all of us may suffer as a result. Ranchers spray pesticides which are carried by winds into nearby areas, killing insects and animals, and poisoning unwary humans. Her protestations take her to council meetings, meetings of the County Board of Supervisors and to the State Legislature. So far, few have heeded, she says.

The solution to the problem, as she views it, is the introduction of Trichogramma, an insect killing parasite, into growing fields. The State Dept. of Agriculture says that the idea is not without merit.

She is currently interested in getting legislation that would make it mandatory to use Trichogramma, and, at the same time, invoke more stringent rules on the use of pesticides.

Mrs. Tallman, should she be interested, has a wider field than chemicals being introduced via sprays.

She ought to take a look at the chemicals we eat unspectacularly in some of the prepared food we buy.

On a tip we purchased a package of prepared meat at the delicatessen dept. of a local supermarket. The label read "Turkey Breast Roll, Chopped, Pressed, Cooked."

Ingredients? Turkey breast? certainly. It could hardly be turkey breast roll without turkey, but there were other things too. It had the broth, salt, gelatin, flavoring and spices . . . the things that were to be expected. But there were sodium caseinate, monosodium glutamate, sodium tripolyphosphate, sodium ascorbate, sodium nitrate and sodium nitrite.

But, alas, the evidence is now gone. We ate the stuff. And by George, it was pretty good, too.

## If Havana Is Freed, Nikita Krushchev Will Do It.

The high-sounding phrases uttered by the President last week when he saluted the Cuban prisoners in Florida are as hollow as an October gourd if we place the same faith in his future acts as we have learned to do in the past.

The regimental flag he accepted from the liberated Cubans will fly over "free Havana" he told them but this is a promise that can hardly be kept. Nothing in the Administration's acts (a questionable exception being the blockade of Cuba) would suggest that Cuba will be free of communism as the result of his effort.

The one posture of strength struck by the President has proved to be as phoney as the UN's U. Thant's commendation. That has since referred to the lifting of the U.S. blockade as a compromise. But for the few hours we invoked it most Americans stood taller because we thought that our national manhood had been recreated. Few Americans failed to achieve a surge of patriotism . . . and for a while we were proud.

Then the President lifted the blockade, backed down on inspecting Cuba's war-making ability, and lately paid blackmail to Castro for the release of prisoners that could have been obtained at the time of the blockade, had we the backbone to demand it. Moreover, the ransom cost is to be borne by taxpayers although the White House publicity grist mills try to make it appear otherwise.

Listen to James B. Utt, the outspoken U.S. Representative who has earned a reputation for his patriotic decency.

He said, in La Jolla Friday, that he has evidence that there are presently 30,000 Soviet troops in Cuba. Some of the Soviet missiles have been removed, he admitted, but the Soviet missile bases, the air bases, and the Soviet submarine bases are still there, he reported. And the missiles can be returned to Cuba overnight, he added.

"We have knowledge of 165 ships working three months in the Cuban buildup," he said. "Yet, the State Dept. gave the all clear signal in just 14 days . . . and with the Soviets using only 7 ships to remove the hardware."

The regimental flag may fly over "free Havana," but unless we change our craven posture, it will be only after Nikita Khrushchev permits it to fly.

## Appointments Start Public Works Reorganization

SAN DIEGO (CNS) — Two acting heads for county departments were appointed last week by the County Board of Supervisors, and a permanent head for another department was named, all as steps in the reorganization of the public works department.

The latter department, which until now has touched most levels of county operations, has been reorganized as a result of the retirement of Jean L. Vincenz, who has headed the department since it was organized soon after the close of the war.

Charles Goode, assistant public works director, was named acting head of the department by Supervisors; and Warren Barney, previously head of the engineering division of public work, was named acting head of the new Special District Services Department.

This new unit will direct administration of sanitation and similar districts, previously done by the public work department.

The building inspection department, formerly a division of public work, will be headed

R. A. Wesks, contractor estimated that the structure would be completed in six months. Guided by the master plan of F. D. Harrington, architect, members of the building committee last spring presented a final plan to the congregation. Chaired by L. Moe, the committee is composed of C. Hoberg, R. Lange, P. Swalstad, Virgil Duea, J. Kaiser, R. Granstedt, D. Perkins, R. Buckner (president of the congregation), and Rev. Bakken. Rev. Bakken said that the ground-breaking "demonstrated the faith of the congregation in this developing community and the extending of the church in Lemon Grove." He added, "We feel that by obtaining our sanctuary we will be better able to serve the community."

### L.G. Lutheran Church Grows

Lemon Grove Lutheran Church broke ground last week for a building that has been in the planning since 1955. Costing \$115,000, it will be at Alton and Skyline.

In other expansion, the church moved the parsonage to 2235 Deboe dr., Lemon Grove "in order to utilize to the fullest the former Goodnight property."

The growing church received 60 new members Dec. 30 by transfer, baptism and adult confirmation. Women of the church will hold a general meeting on Jan. 8 at 7:30 p.m.

### GOD'S WORSHIP IS CHURCH TOPIC

New Year's Sunday sermon is "The Worship of God" at Vista La Mesa Christian. The text is from Exodus and deals with the second command of the Decalogue, and deals with graven images. One of the most valuable of religious truths is that God is not contained in houses, images, churches made with hands. God is spirit; and is found in the lives of those who believe in him and strive to obey his commands.

### FIRST BAPTIST WOMEN'S MISSIONARY SOCIETY TO MEET ON JAN. 9

The Women's Missionary Society of the First Baptist Church of Spring Valley has postponed its meeting until Jan. 9. At that time two exchange students will be special guests and speakers.

At the 7:30 p.m. service he will bring a communion message and there will be special music by the Young People's Choir.

### GOD'S MINUTE

REV. H. C. BAKKEN  
"PRESS ON"

The Wise men followed a star which led them to Bethlehem. We do not know how long after the birth of Jesus they arrived, but it may have been some time. When they arrived they found the Christ-child. Christ-mas did not end with the birth in Bethlehem. It continued and will always continue. Press on to know Christ in your everyday life.

## GJC 'Pre-Registration' Procedure Described

Students anticipating attending Grossmont College day classes for the first time during the spring semester are reminded of pre-registration procedures.

Dean of Admissions and Guidance, Laurence Coons announced this week that pre-registration students must obtain pre-registration programming appointments between Jan. 15 and 24 at the campus on Sweetwater Springs blvd. in Spring Valley.

Before the appointment takes place, a new day student must have filed an official application as well as official transcripts from the last high school and all colleges attended, and must have taken the entrance examination. The examination will be given on Jan. 10 at 7 p.m. and Jan. 12 at 8:30 a.m. Test reservations will be made at the time of the appointment.

Pre-registration for returning students is now going on and will continue through Jan. 11. The earlier a returning student pre-registers, the higher priority he or she has in selecting classes.

Registration for all day students will be held Tues., Jan. 29 from 8-11 a.m. and from 1-4 p.m. Pre-registration and registration details for evening students at Grossmont are slightly different from those for day students. Pre-registration meetings for returning students are scheduled for January 2, 3, 7 and 8 at 7 p.m. at the college campus.

New evening students will begin pre-registering on Jan. 15 at 7 p.m. Before that date such students must have an official application, and in some cases, high school and college transcripts. # BIGGEST CHECK SPREE IS RESULT OF L.G. BURGLARY

Payroll checks stolen from a Lemon Grove electric firm are responsible for the "biggest paper hanging caper" in recent years it was revealed here.

The United Electric Co., 6933 North ave., Lemon Grove, reported that a book of pink payroll checks numbered 101 to 599 was stolen from the firm "during the past month."

Forty-six checks have been cashed, mostly in Chula Vista and National City and the amount in each case was ex-

actly the same — \$176.67. Only one was passed locally. That one was at Popular Delicatessen on Broadway in L.G.—also for \$176.67.

The check passer was variously described as large and Spanish and small and Caucasian. He signed a variety of names including those of William Sikes, George R. Young, and Clayton Allen. In each case he backed up his identity with a fictitious driver's license. The checks were on the 3rd and E sts. branch of the Bank of America and carried the forged signature of Arnie Robinson, owner of the L.G. electric firm.

John Prusa and Buck Perigo, members of the sheriff's forgery detail said that the burglar had used the electric company's check protector to fill in the checks after stealing them.

Robinson became aware of the burglary after the bank reported that several checks had been turned in for payment. Investigation then revealed that a check book had been taken but nothing else was removed. Detectives said that the burglar apparently was familiar with the office and its procedures.

On forged checks, each firm cashing the check suffers the

loss unless the bank cashes them. In the latter case the bank is the loser; detectives did not how many of the 46 checks if any, were cashed by the bank.

## Area Boys In Army's Buddy Program

The Army Recruiting Station in La Mesa reported the recent enlistment of two local youths under its "Buddy Plan." Those enlisting were: John Harvey Rodgers, 18, son of Mr. and Mrs. Harry Rodgers, 1632 Angelus st., Lemon Grove, and his buddy, Mark Steven O'Gara, 18, of Jamul.

Both young men enlisted with a guarantee that they will re-

main together during basic training. Both young men graduated from local high schools last June, Rodgers from Mount Miguel, and O'Gara from Monte Vista. Both are presently home on "Holiday Leave," and will report for basic training at Fort Ord.

According to M/Sgt. Edward R. Edwards, of the La Mesa office, many technical schools, vo-

ational training, and travel choices will be available to young men and women enlisting during January. Enlistment is for 3 years. Each applicant found fully qualified, receives a written guarantee of choice before enlistment, the sergeant said.

# Sonic Boom Blast Blamed For Bank's Smashed Glass Door

A thick plate glass door, disintegrated into tiny shreds, posed a mystery for the Campo Bank of America and sheriff's men.

There was no missile nor evidence of entry by bank officials Wednesday morning following the holiday. A sonic boom might have caused the disintegration of the glass, some opined.

## Bar Employees In Steak-Knife Fracas

"That's not exactly the way it happened," said Tony Cidot.

barkeeper at Shay Wen in Casa d' Oro. The man who chased another with a steak knife didn't chase him on the Shay Wen premises, he explained. It happened at an all-night cafe in El Cajon. Previously, it was reported that the incident took place in Casa d' Oro.

"Shay Wen closes at 2 a.m. and the group of us who work at Shay Wen went to the El Cajon place for 3 a.m. breakfast," Cidot said.

An argument concerning girl friends took place there, Cidot explained. Cidot said he was not involved in the argument.

## On Target

\$200. tape recorder were removed.

The bag was found later by Ray Wilhelm, school maintenance man near the entrance at the Golden Ave. school. The contents of the bag were intact except for a hypodermic syringe.

# Two Day Week Is Innovation With Meat Firm

Arvilla C. Battersby, owner-operator of the new North Park Branch of "Glen-Joe's Steaks," announced that a two-day selling week built a new Glen-Joe Meat Processing Center in El Monte.

One of the most successful and unusual stories in West Coast food circles reached another milestone in August when production began to flow from the new Glen-Joe Meat Processing Center in El Monte.

Five years ago, principals Glen Freeman and Joe Keating opened the first Glen-Joe retail outlet. It was open only two days a week, Friday and Saturday, to sell boxes of frozen, individually-wrapped, tenderized steaks. Since then more than twenty franchise outlets have opened — with more to come. These, too operate only on Friday and Saturday.

The fantastic success of this two-day-a-week selling idea led to the building of the new Meat Processing Center which will supply all the meats to the Glen-Joe stores in the 11 Western States.

Glenn Freeman, president, said, "To produce the best steaks at the very lowest cost, the most modern equipment and materials have been used. And to maintain quality standards we have on our staff, in addition to outstanding meat men, a food technologist and a home economist."

Vice President Joe Keating added, "A most unusual feature is our Balanced Power gas test kitchen. It was designed for us by the Kitchen Planning Bureau of Southern California Gas Co., and Southern Counties Gas Co., to duplicate kitchens found in modern homes. Thus, we can test our daily output of steaks, chops, and roasts in exactly the same way as do our customers."

Mrs. Battersby also advises that in line with the company policy, the new North Park Store at 3946 Illinois street will be open only two days each week, Friday and Saturday.

## Councilman Curran To Speak At Rotary

Frank Curran, San Diego Councilman, will be speaker Monday at the L.G. Rotary club. Curran has visited South American countries and will discuss Cuba, and Latin American affairs.

The Rotary club late last year elected Curran Mayor of San Diego "just for fun."

Bob Dryden is president. The club meets at Michael's at noon.
